When advised below, please include all requested fax documentation (lab results, etc.) when submitting this Prior Authorization fax form; not submitting requested documentation could delay the clinical review process.

**Juxtapid Prior Authorization Form**

Initial Therapy		
You must answer ALL of the following questions		
1. Is the patient 18 to 55 years of age?	Y	N
2. Does the patient have a diagnosis of homozygous familial hypercholesterolemia (HoFH)? <i>Please submit copies of initial history and physical OR initial consultation, including (a) clinical course (and, if applicable, documentation of cardiovascular disease before age 20 while patient was untreated) and (b) family history specifically relating to lipid disorders and cardiovascular events.</i>	Y	N
3. Has the patient undergone genetic testing to confirm two mutant alleles at the LDLR, APOB, PCSK9, or LDLRAP1 gene locus? <i>Please provide documentation.</i>	Y	N
4. Has the patient undergone cellular testing to demonstrate reduced LDL receptor activity in fibroblasts/lymphocytes equaling 20% or less of the normal activity? <i>Please provide documentation.</i>	Y	N
5. Does the patient have an untreated LDL-C level of greater than 400 mg/dL? <i>Please provide documentation.</i>	Y	N
6. Do both of the patient's parents have an elevated (greater than 250 mg/dL) total cholesterol or LDL-C before lipid-lowering therapy consistent with heterozygous familial hypercholesterolemia? <b>(Please circle)</b>		
<ul style="list-style-type: none"> <li>• Yes</li> <li>• No</li> <li>• LDL levels are not known</li> </ul>		
7. Do both of the patient's parents have a history of early vascular disease (men less than 55 years of age, women less than 60 years of age)?	Y	N

8. Did the patient have cutaneous or tender xanthoma(s) before the age of 10? <i>Please provide documentation.</i>	Y	N
9. Has the patient had a trial and failure of combined therapy using LDL apheresis, high dose statins and cholesterol absorption inhibitors?	Y	N
10. Does the patient have a serum creatinine level from the past 12 months equaling 2.5 mg/dL or less? <i>Documentation required.</i>	Y	N
11. Does the patient have a serum aminotransferase level from the past 12 months equaling less than three times the upper limit of normal? <i>Please submit documentation, along with the normal range listed.</i>	Y	N
12. Does the patient have congestive heart failure?	Y	N
13. Does the patient have a history of cancer within the past 5 years?	Y	N
14. Does the patient have a history of drug or alcohol abuse?	Y	N

<b>Renewal Therapy</b> <b>You must answer ALL of the following questions</b>		
1. Has the patient shown LDL reduction in response to treatment? If yes, please provide supporting documentation (chart notes).	Y	N

### Kynamro Prior Authorization Form

<b>Initial Therapy</b> <b>You must answer ALL of the following questions</b>		
1. Is the patient 12 to 53 years of age?	Y	N
2. Does the patient have a diagnosis of homozygous familial hypercholesterolemia (HoFH)? <i>Please submit copies of initial history and physical OR initial consultation, including (a) clinical course (and, if applicable, documentation of cardiovascular disease before age 20 while patient was untreated) and (b) family history specifically relating to lipid disorders and cardiovascular events.</i>	Y	N
3. Has the patient undergone genetic testing to confirm two mutant alleles at the LDLR, APOB, PCSK9, or LDLRAP1 gene locus? <i>Please provide documentation.</i>	Y	N
4. Has the patient undergone cellular testing to demonstrate reduced LDL receptor activity in fibroblasts/lymphocytes equaling 20% or less of the normal activity? <i>Please provide documentation.</i>	Y	N
5. Does the patient have an untreated LDL-C level of greater than 400 mg/dL? <i>Please provide documentation.</i>	Y	N
6. Do both of the patient's parents have an elevated (greater than 250 mg/dL) total cholesterol or LDL-C before lipid-lowering therapy consistent with heterozygous familial hypercholesterolemia? <b>(Please circle)</b> <ul style="list-style-type: none"> <li>• Yes</li> <li>• No</li> <li>• LDL levels are not known</li> </ul>
